

Hernando Times
Letters To The Editor

I am appalled to learn that employees of Hernando County are being "rented out" to the muslim community to help with their Ramadan celebration.

Don't the administrators of this county know that in honor of Ramadan the Muslims in Iraq have killed an even greater number of our Soldiers and Marines than in the precedeing months?

The stated goal of the Muslim faith is to kill us, the "infidels". By providing county employees for their use Hernando County is sanctioning this hateful, frightening religion.

Even though the Muslims have rented our employees, I doubt that the money they have coughed up is enough to cover all the expenses we pay for these people such as insurance, vacation time etc. And because of this unacknowledged, tax payer covered expense, I believe what is happening is illegal.

Illegal is bad enough but helping to promote the Muslim religion is immoral and unAmerican.

Politically incorrect and proud of it,

Mary Ann Hogan
